

Arrival Information and Logistics

Name:

Course:

Phone Number (Accessible during travel to class):

Flight Information (if applicable):

Estimated Arrival Date AND Time:

Note: Most courses are schedule to officially begin at 6pm on Sunday evening with a meet and greet and course orientation session. This may be different for courses not taking place at Hamilton Valley. As a participant in the class, you are expected to be in attendance at this orientation meeting. Your instructors or the KFS Director will share any changes to the official start time for your class. Schedule information communicated via email from the instructors or the KFS Director should be referred to as most accurate and up-to-date since tentative course schedules shared on the KFS website were likely prepared months in advance of the class.
